PROPOSED INTEGRATION OF SOUTHWEST STATION  
OPERATIONS INTO THE OVERALL CULTURAL AND EDUCATIONAL  
OBJECTIVES OF SOUTHWEST

1. Structure and Purpose of Southwest.

Southwest is a not-for-profit nonstock corporation with 11 directors. Attachment 1 is a list of Southwest's officers and directors. Southwest's Articles of Incorporation and Bylaws are attached as Attachment 2.

Southwest's cultural and educational goal is to advance the educational goals of public and private educational institutions and public service and charitable organizations in the service area as more particularly set forth in Attachment 3.

2. Proposed Programming.

Southwest proposes to air programming which will address the educational and informational cultural needs of service area youth, families and the service area as a whole. It will broadcast news, Hispanic programming, educational programming, instructional programming, entertainment programming, PSAs, student-produced programming, cultural programming, school related programming, and public affairs programming. Educational programming will include inter alia such educational programming on youth-oriented topics such as drugs, family and social interaction, inter-personal relationships and religion. Attachment 4 describes programming contemplated.

### 3. Ascertainment Efforts.

Southwest devised its programming based generally on input from individuals within the service area of the proposed station as well as on its experience programming WAYJ(FM) in Ft. Myers, Florida and WAYM(FM) in Columbia, Tennessee. Southwest will, if awarded a construction permit for Conway, Florida, regularly contact service area residents and community leaders in order to ascertain community needs in an effort to address issues of particular importance to Conway and the surrounding service area. Southwest will form and consult with an advisory committee of individuals active in educational endeavors within the Conway Service area.

### 4. Likelihood of Effectuation.

Five members of Southwest's Board have experience in broadcasting. Bob Augsburg is currently managing WAYM(FM) in Columbia, Tennessee and was from 7/87 to 2/92 managing Southwest's WAYJ(FM) in Ft. Myers, Florida. The Board oversees the operation of both stations and many of its members, in addition to being involved in broadcasting, have educational experience.

### 5. Cooperation With Service Area Schools.

Southwest will cooperate with schools within the Conway service area to promote, support, and air educational events, cultural events, and sports events. It will cooperate with Orange County, Florida Schools, with service area institutions of

higher learning, and will coordinate with local high schools to promote and support outstanding students. Southwest will also interview students who possess particular scholastic and artistic ability.

6. Integration/Involvement of Board in Station Operations.

Southwest will relocate at least one Board member to the Conway, Florida area. In addition, the Board members all have experience in either broadcasting and/or education.

7. Internships With the Station.

Southwest proposes to provide internships at the station. Southwest has a successful track record of training interns at WAYJ(FM) in Ft. Myers, Florida and will continue to provide similar training in Conway. It will, in conjunction with area high schools and colleges, seek to offer academic credit for internships at the station.

## EXHIBIT #1

The purpose of Southwest Florida Community Radio, Inc. is to advance the educational goals of public and private institutions of education, and of public service and charitable organizations in the Conway/Orange County surrounding area. The applicants Board of Directors is comprised of men and women associated with various public, and private schools. We also will be organizing a local advisory committee of men and women from the Conway area who will be active in involving Orange County educational institutions to further enhance the stations advancement of the arts, culture and education.

The applicant is very much aware of the need to involve youth in the operations of this proposed educational station. As a board, we are very concerned about the growing drug problem, suicide, and crime tendencies which permeate our society. This stimulated the initial concern for our first station WAYJ, located in Fort Myers, Florida. Our commitment to the new broadcast station in the vicinity of Conway, Florida will be to offer a similar service to the community. The applicant has a proven track record of training college, and high school students in all facets of broadcasting. Our board is comprised and directed by individuals who possess an extensive background in broadcasting and in training students in this field. We believe that as young people become active in their community and in communications, they will become better citizens.

The ongoing needs of Conway, and the Orange County area will be regularly ascertained, and educational programs to help meet those needs will be provided by the applicant. Our commitment to serve the local Conway area is further exemplified by the applicants willingness to relocate a board member in the new area to be served. In addition to our local advisory committee, we feel like this will help to enable us to better serve the educational, and cultural needs of the Conway, Florida and the greater Orange County area.

PROGRAMMING STATEMENT OF SOUTHWEST FLORIDA  
COMMUNITY RADIO, INC.

SOUTHWEST FLORIDA COMMUNITY RADIO, INC. IS A NON-PROFIT, TAX-EXEMPT CORPORATION WHOSE PRIMARY OBJECTIVES ARE AS FOLLOWS:

- I. To provide educational, informational, cultural, and family oriented programming to Conway, Florida. This area is rich in the field of arts, and music.  
The proposed station would feature programs that would assist in passing this heritage to the young generation.
- II. To offer a considerable amount of positive programming for area youth through:
  - A. Local high school outstanding student salutes.
  - B. Interviewing students who possess scholastic and artistic enthusiasm.
  - C. Educational programs on youth oriented topics, such as drug awareness, family and social interaction, and interpersonal relationships, and religions.
  - D. Cooperation with Orange County Schools in the promotions of drama presentations, sports activities, musical concerts, and special lectures.
- III. Training students for future broadcasting careers through the offering of internships for both high school, and college credit. This would be coordinated through Orange County public and private schools, and also through nearby colleges that offer journalism, public speaking, and broadcasting courses. Such colleges would include, but not limited to University of Central Florida, Rollins College, and Valencia Community College.
- IV. Restoring respect for family and authority. As a broadcast applicant we have already ascertained that there is a great need in the Conway, greater Orlando area for programming that will address the complex needs of the family. The family breakdown has resulted in a general low self esteem among our youth, under achievement in the classroom, and a drug and alcohol abuse epidemic. Programs will be developed to explore solutions to these problems which permeate nearly every facet of our culture.

It is believed that these objectives are not currently being met in the Conway, greater Orange County area. We have ascertained that the community desires a broadcast outlet to address these needs. The applicant will fully comply with the letter, and spirit of F.C.C. rules and regulations.

### PROGRAM DESCRIPTIONS

The following is a sample of proposed programming for new Conway, Florida non-commercial educational station. This list is not all inclusive, but does represent the types of special programs that will accomplish the educational and stated purpose of Southwest Florida Community Radio, Inc. Additional programs will be added as the needs from Conway area residents are expressed through ongoing ascertainties.

#### CAREER CONCEPTS:

The applicant has ascertained that youths residing in Central Florida are generally more apathetic than youth in other regions. This apathy filters into the educational process where students about to enter college have little or no knowledge about the possible career choices available to them. The station proposed broadcast facility will feature regular programming that will focus on this problem. Programs would include:

- 1) **Inter Cristo Career Concepts**- a two minute program exploring new avenues of careers and the types of courses students should take to qualify for said careers.
- 2) **Various interview programs**- with students, will be locally produced where guests would be recent college graduates sharing insight and answering questions from students who are unsure of career goals and lack general direction as to what type of higher education they should pursue.

#### GULFSHORE COLLEGE SPOTLIGHT-

Gulfshore Christian College would produce this program (30 minutes weekly) instructing youth and adult listeners on the available areas of credit study available at their Southwest Florida area campus. Professors of Archeology, Science, Bible and Radio Broadcasting would host these informative programs and students who are enrolled in the radio broadcasting course would be actively involved in the writing and producing of the broadcast for credit in their studies.

#### HIGH SCHOOL INTERN HOUR -

One hour daily radio show coordinated by a rotating group of students studying fields of journalism and radio broadcasting at various Orange County public and private high schools. The program will serve to add credit and hands-on experience to students who might otherwise not have the opportunity afforded to them.

EXIBIT #4

ORANGE COUNTY FOCUS ON THE ARTS - This proposed program (length to be determined) would be produced and written by the drama departments of Conway area colleges and high schools. The purpose would be to inform area residents on upcoming art exhibits, drama presentations and musical concerts coming to the Conway/Orlando vicinity. The production of this program may also help to add practical experience to students aspiring radio or the fine arts.

STUDENT METEOROLOGICAL REPORT - Periodically, as serious and unusual weather conditions exist, the station will afford the opportunity for students who are majoring in meteorological studies to produce programs that will educate the listening audience on weather conditions such as hurricanes, tornados and the damages of lightning. Central Florida is known for high incidents of lightening related injuries and deaths.

YOUTHTALK -

The applicant has ascertained that the Orange County area has one of the highest percentages of teen drug users and abusers. Further research indicates that reasons for this abuse point to the breakdown of the family structure, lack of religious involvement and respect for authority. The applicant will provide a variety of extensive programs hosted by experienced youth pastors, social workers and teachers that will offer hope and practical advice. One such program will be YOUTHTALK every Sunday evening from 8 to 10PM. The program will be hosted by Anne Wanicka, an English teacher who also possesses experience in dealing with confused, troubled teenagers.

PERSPECTIVE -

This weekly 30 minute program will feature interviews with Conway area leaders in education, government, and civic organizations. The topic of discussion will focus on the needs of the growing Central Florida area and how to handle problems associated with this growth.

EXHIBIT #4

- PARENT TALK - Ascertainments reveal that the breakdown of the family is an ongoing serious problem in the Conway area. Parent Talk will feature experts in the field of parenting and communication with children designed to improve relationships within the home.
- PASSPORT TO SUCCESS - This five minute program will be featured daily and will provide a forum for discussion into the world of business and career.
